**SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**  
**(37 C.F.R. §1.97(c)(2))**

This Information Disclosure Statement is being filed pursuant to 37 C.F.R. §1.97(c)(2) before the mailing date of any of a final action under §1.113, a notice of allowance under §1.311, or an action that otherwise closes prosecution in the application. This information disclosure statement is accompanied by a check in the amount of \$ 180.00 as payment of the fee as set forth in 37 C.F.R. §1.17(p).

The following information is being disclosed to the Patent and Trademark Office as information that may be material to the examination of the above-identified patent application. Certain non-U.S. patent publications listed on the attached were cited by Applicant's or the Examiner in application 08/804,236 (now U.S. Patent 6,188,909), from which the present application claims priority.

Applicant further draws the Examiner's attention to the following U.S. Patents that also claim priority to the aforementioned 08/804,236 application:

6,292,668

6,400,958

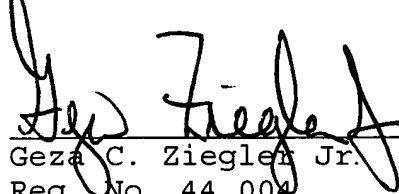

6,370,389

Also, three of the cited references are not in the English language. As to JP5-347576 and SE503752, Applicant includes English abstracts. As to pages 195-203 of Giese et al., "Dienste und Protokolle in Kommunikationssystemen", Applicant states that this reference was cited in the International Preliminary Examination Report (IPER) of PCT/FI97/00119 (published under WO97/32439), which application was a PCT application based on FI960895. The parent to the present application (08/804,236, now U.S. Patent 6,188,909) also claimed priority to FI960895. Attached hereto is a copy of the IPER from PCT/FI97/00119. Applicant further attaches a copy of a letter submitted to the European Patent Office in EP application 97905166.1, which was a national stage application, PCT/FI97/00119. In the letter, the Giese reference is discussed.

Copies of non-US patent references are enclosed together with a Form PTO-1449.

The Commissioner is hereby authorized to charge payment for any additional fees associated with this communication or credit any over payment to Deposit Account No. 16-1350.

Respectfully submitted,
